

5 Fun Tips To Get Free Pix for Class #2

You need **4 - 6 colorful magazines** to do “Visioning with Images” & make a vision board – which we’re doing in Class #2, our online Vision Board Party!

Where to get them?

Of course you can go out and BUY 4 to 6 of your favorite magazines. **Especially good for visioning are magazines about:**

- **travel** -- like National Geographic or Conde Nast Travelor;
- **nature** -- like Nature or National Wildlife;
- **culture & popular science** -- like Smithsonian or Discover;
- **garden and home** -- like Organic Gardening or Martha Stewart Living
- **‘aspirational’** magazines for women -- like Oprah Magazine or Self

But you don't have to buy anything!

Instead you can save \$\$ and RECYCLE some of the sea of printed material that we all are swimming in.

My “5 Fun Tips to Get Free Pix”

TIP #1: **ASK your neighborhood, office, church/temple/mosque** to drop off their unwanted magazines at your door -- or bring them to you at your place of work or worship.

TIP #2: **EMAIL local groups you belong** to and ask for old magazines. In my experience with a neighborhood list-serve, a single email is enough to generate all the magazines you need -- and more!

TIP #3: **ASK your doctor, dentist or other healthcare provider** if you can have the old magazines from their waiting room.

TIP #4: **ASK family and friends** for old magazines, picture calendars, or catalogs. People often have these sitting around, and it doesn't take much to collect the 4-6 you need...

TIP #5: **LOOK through your mail and recycling**. Even if you don't get any magazines, chances are you have catalogs, newspaper inserts, old calendars, flyers, unused notecards, or other sources of interesting images sitting around...

Happy collecting!
